T·I·E·R
Tiered Interventions Using Evidence-Based Research

DATA CHAT WITH DR. THEA
Join us for a discussion on data-based decision-making

Support and conversations around student data, instruction, assessments, and data-based decision-making with Dr. Thea Woodruff. This collaborative conversation for TIER Network members is an opportunity to speak about data and data-based decision-making with an open platform and guiding topic. Data Chat with Dr. Thea is neither required nor training on data. Instead, it is a supportive opportunity to align and anchor data-based decision-making practices to TIER materials. TIER will use feedback from the group to plan and design ongoing support.

Time: Mondays 2:00 – 3:00 PM
Zoom Link: https://utexas.zoom.us/j/95901720613
Meeting ID: 959 0172 0613

September 20
Screening Data: What Are All the Ways to Use It? (whether in academics or behavior)
Helpful materials to have:

- *Leadership Module, Creating an Assessment Plan Handouts*
- *Deidentified screening data you have and may want to discuss*

October 25
What Do We Mean by Informal Diagnostic Data, and Why Do We Need Them?
Helpful materials to have:

- *Deidentified diagnostic data you have and may want to discuss*

November 22
Using Progress Monitoring Data: Assessments, Tools, and Resources
Helpful materials to have:

- *Leadership Module, Creating an Assessment Plan Handouts*
- *Deidentified progress-monitoring data you have and may want to discuss*

December 13
Structured Data Meetings: Why? When? How?
Helpful materials to have:

- *Materials found on the ELITE website: Implementing Structured Data Meetings for English Learners*

January 24

Setting and Using Intervention Entry and Exit Criteria

Helpful materials to have:

- *Leadership Module, Your MTSS Plan Handouts*
- *Any assessments you use to make decisions about intervention entry and exit*

February 28

Quantitative Data Versus Qualitative Data: Types and Uses

Helpful materials to have:

- *Any data you have and may want to discuss*

March 21

Streamlining Data Systems (screening data, attendance, grades, state assessments, etc.)

Helpful materials to have:

- *Any data you have and may want to discuss*

April 25

Managing Data with High Staff Turnover/High Mobility Students

Helpful materials to have:

- *Any data you have and may want to discuss*

May 23

Review: Understanding, Leveraging, and Interpreting Data
